Level IV Accident Reconstruction - \$950

Oct 30 - Nov 10

Host: Brooklyn PD

This 2 week school is designed to teach an officer how to reconstruct a motor vehicle accident. Each officer must have completed Level I, Level II and Level III training to enroll. "Reconstruction" is a process of correctly analyzing data and evidence and thinking about what it means. Topics will include mechanics and dynamics, airborne equations, vehicle and occupant behavior in accidents, articulated vehicles, trigonometry, motorcycle and pedestrian reconstruction, night time visibility experiments, conservation of linear momentum and expert testimony. Numerous case studies will be analyzed.
